UNFCCC COP

INTERNATIONAL BLUE CARBON INSTITUTE LAUNCH

BUILDING CAPACITY TO ADDRESS CLIMATE
ALONG THE WORLD'S COASTS

© Arun Roisri

MONDAY 14TH NOVEMBER

4:00 pm

SINGAPORE PAVILION

Reception to follow

The International Blue Carbon Institute will accelerate and scale blue carbon implementation in Asia and beyond through science, training, and development of essential technical capacity, methodologies, and tools. Based in Singapore, the goals of the Institution are to:

- Build multi-disciplinary capacity in Asia and beyond, to research, design, and implement blue carbon related programs, policy, and projects,
- Provide a globally recognized hub facilitating the exchange of blue carbon expertise, knowledge, and learning, and
- Provide regional and international leadership in the translation of cutting-edge science into tools and methodologies for broad application of blue carbon for climate mitigation and adaptation.

MODERATOR:

Carlos Eduardo Correa,
Former Minister of Environment and Sustainable Development, Colombia

SPEAKERS:

Grace Fu,
Minister of Sustainability and Environment,
Government of Singapore

Dr. Emily Pidgeon,
Vice President, Conservation International

Jamey Mulligan,
Head of Carbon Neutralization Science and Strategy, Amazon

Dr. Michael Falkowski,
Program Scientist, NASA

HOSTED BY:

This event will be hosted in the Blue Zone of the COP 27 venue, which requires an official badge to access.
